

## In the 100th Test match India vs West Indies, Ajinkya Rahane is looking for a bagful of runs

In order to extend his International career Ajinkya Rahane is going to pile on the runs and help the Indian cricket team sweep the series against the West Indies cricket team in the second and final test match, which is going to start on Thursday.

This will mark the 100th test match between India and the West Indies, and the captain of team India, Rohit Sharma, said that it is going to be a big occasion, and his team is expecting to dominate the West Indies in the same way they did in the series opener match in Dominica.

After the match at the Queen's Park Oval, India will be playing their next test match only on the tour of South Africa later in the months of December and January. This will leave the likes of Rahane one more opportunity to make it difficult for the selectors to overlook him for the series against the Proteas.

In his first test match in 18 months, which was the finals of the World Test Championship 2023 against the Australia cricket team held last month, Ajinkya Rahane was the standout batsman

for team India, but he is ruining the missed opportunity on a slow and turning pitch in Dominica where team India needed to bat once only.
