Comparing fee structure of top B. Tech colleges

For Indian students, engineering has consistently been the most popular field of study. The need for engineering courses increased dramatically, especially in the previous 20 years as information technology advanced significantly.

In actuality, the two decades contributed to the creation of one or two engineers in each home. The rapid expansion of **colleges in Noida for B. Tech** has further boosted the rise of engineers in India. The country is now different, with a larger proportion of tech-savvy people.

The "quality" of education has remained the deciding element when selecting **colleges near me for B. Tech** for technical education, despite the rapid expansion in the number of **top B. Tech Colleges in Greater Noida.**

Whether you are selecting the **top 10 B. Tech colleges in Greater Noida** or anywhere in the country, the below list of colleges with fee structure will help you narrow down the colleges to choose as per your financial conditions.

Indian Institute of Technology

IITs have consistently ranked highest in India for providing high-quality education. Top spots in engineering college rankings have been occupied by its campuses in Kharagpur, Mumbai, Kanpur, Delhi, Chennai, Roorkee, and upcoming campuses in every new location.

Fees per semester

INR 57,250/- (per semester) + INR 12,250/- (per semester towards hostel and other fees)

National Institute of Technology

Similar to IITs, NITS campuses provide a variety of courses, including PhD, graduation, and post-graduation programs. Students enrolled in NITs must pass the Joint Entrance Examination-Main. Each of its campuses is independent and allowed to select the courses they want to teach.

Per-semester fees

INR 23,537(per semester) + INR 26,826 (towards hostel and other charges)

Because NITs are independent institutions, their course costs differ from one another.

Delhi Technological University

Established in the year 1941, Delhi Technological University has remained one of the top institutes in the nation in the subject of technological education. It offers graduate and post-graduate programs in a range of disciplines.

Fees per semester

INR 37,500 (Per semester) + other applicable fees as fixed by the college.

IIIT Hyderabad

IIIT, Hyderabad, a globally recognized institution in India, was founded in 1998. This independent institution, which began as a non-profit public-private collaboration, was the first to establish itself as a distinctive entity with extraordinary standards for providing high-quality education.

Fees per semester

INR 80,000 (per semester) + INR 10,900 (towards hostel and other fees)

Netaji Subhas Institute of Technology

The University of Delhi is associated with the Netaji Subhas Institute of Technology, an autonomous body under the administration of the National Capital Territory (NCT) of Delhi. It

offers graduate and undergraduate courses in engineering, social science, humanities, and management.

Fees per Semester

INR 83,500 (per semester) + other fees applicable

Scholarship schemes

Colleges conduct entrance exams for students who want to enroll in a B. Tech course but despite having an impressive academic profile and securing above 90% marks in entrance exams, many students fail to secure admission due to lack of money. To resolve this issue, many **top B. Tech colleges in Greater Noida** provide scholarship programs to promising students. They provide scholarships on a variety of parameters such as:

- Reserved Category – SC/ST/OBC
- Economically weaker section scholarship
- Minority Scholarship
- Scholarships based on geographical locations
- Foreign student scholarship
- Scholarship for defense families
- Scholarship for students with disabilities
- Scholarship based on class 12th score

Bank Loans

Colleges in Noida for B. Tech allow candidates to apply for study loans from any of the National or State Bank. To qualify for loan approval, students must provide all documents about their B. Tech admission, residential address, fee structure, bank details, ID proof, and many more.

If approved, the loan money will be directly transferred to the **colleges near me for B. Tech** you chose to join. After leaving the college, the bank will begin incurring interest on your education loan. You need to pay all the money with interest within the scheduled period.

KCC Institute of Technology and Management

KCC ITM is one of the **top B. Tech colleges in Greater Noida**, spread across a wide 40-acre campus, and has all the top-notch facilities apart from offering B. Tech courses in a variety of specializations including data science, AI and ML, IoT, etc. KCC ITM is APKTU-affiliated and AICTE-accredited. KCC ITM offers scholarships depending on various categories and educational backgrounds.

The cost of the B. Tech program is INR 50000 per semester (All Inclusive) except application fees of INR 800.
