

## Your Question Paper Will Become a Breeze to Solve with Extramarks Study Materials

CBSE Class 1 to 12 sample paper can be of great help to students attaining good grades in school exams. There is no denying the importance of sample papers if a student wishes to score well in examinations. Solving sample papers helps increase the speed of problem-solving, provides an overall understanding of the question pattern, improves time management, and boosts trust. Extramarks makes the sample papers for ICSE boards that are made according to the guidelines set by the educational board. The [ICSE Sample Papers for Class 7](#), for example, are available and downloadable on their website. The ICSE Sample Papers for Class 7 are made for all the subjects from Hindi to Maths. Students can use these ICSE Sample Papers for Class 7 to practice for their exams since the sample papers are made to resemble the Class 7 Question Paper.

A Class 7 Question Paper may seem easy for someone in Class 12 but not to a student in Class 7. If the students practice and study properly then the Class 7 Question Paper will not seem difficult to them at all. Extramarks sample papers are a great way to analyze how much a student is prepared for his or her exams.

Extramarks offers online solutions for the students of ICSE. Online learning has now become a norm for the new generation of students. Young minds are now learning numbers and alphabets through videos and games on their parent's mobile phones or through cartoons. The benefits of online learning are numerous. It is more accessible and in the case of Extramarks even cheaper. Students can get the study packages for their classes on the Extramarks website at an extremely affordable price. The study packages come with materials like notes, guides, sample papers, videos, and even guidance from the Extramarks education counselors. All this at a price that won't burn a hole in the parent's pockets. Parents can also get in touch with Extramarks customer support if they find the study materials or the guidance their child is getting unsatisfactory.

Extramarks strives to make learning a process that engages the mind of the child rather than bores it. Students will learn about the topics in an extremely engaging manner. Interactive videos make learning about a generator a fun thing for the students.

Apart from using the website students can also get their study materials on the Extramarks learning app.
