

Apple And Tesla Stocks Fell In 4th Quarter

Apple and Tesla are two of the biggest tech entities in the United States, but they are currently dealing with problems with their stocks.

The two companies face significant headwinds in China, which concerns investors.

Apple's shares fell more than 3% when concerns about the iPhone lineup in the December quarter grew louder.

Meanwhile, Tesla fell by 12% on Tuesday when the company reported that deliveries were below analyst expectations...[Read More](#)
