

Importance of B2B e-Commerce Website Development

B2B e-commerce has never experienced a slow down because, according to statistics, the United States made \$ 969 B in the year 2017. However, in the year 2018, the sales increased to \$ 1 trillion, making a 17% increase in previous transactions. According to Forrester studies, the value is expected to rise even higher in the coming years. For further information visit - [ecommerce web development company india](#) page.
