

Lyn Buchanan talks about the <https://intuitivespecialists.com/> mechanics of remote viewing and walks us through a session. It was the SRI Lab that created the Army's Stargate Program, and he talks about how they began, the uses that they put remote viewing to, and you see in his presentation, and in these other presentations, rarely seen examples of the real remote viewing experiences and the problems they took on.

I also was trained by Lyn Buchanan (Men Who Stare at Goats), one on one training from Stephan A Schwartz (author numerous books on remote viewing), Professor Waldo Vieira of the International Academy of Consciousness , Lori Williams, Hal Puthoff PhD and Russell Targ among many others.

Like the presentation by Hal Puthoff, this is a rare opportunity to hear the principal expert on an important aspect of remote viewing speaking on the record. The potentials of remote viewing are seductive and vast, and the whole movement works like an incubator for radical ideas.

I guess what I think I know is that Remote viewing means more than sight. In remote viewing, you will see indistinct images, shapes, and colors, but they will usually not look like something identifiable. All these are descendants of the original SRI controlled remote viewing methodology.

23 M. D. Mumford, A. M. Rose and D. Goslin, "An Evaluation of Remote Viewing: Research and Applications," American Institutes for Research (September 29, 1995). Joe McMoneagle has expressed the opinion session feedback is required to learn CRV, and this could not be obtained when targeting such unverifiable locations.

Normally the monitor was not provided any information on the target to prevent what we called psychic-overlay and of course to preclude the potential for inadvertent promoting or cueing on the part of the Viewer. Similar to clairvoyance , remote viewing is the ability to sense accurate details and information regarding a location (that is non-local or distant), event, or a person without utilizing any obvious means or any of your physical senses.

Remote viewing can be an interesting concept for those who are willing to learn. This protocol, dubbed "remote viewing," proved more reliable than earlier attempts to simply pick random

numbers or guess selected cards. As one of the program's top psychic agents, Morehouse found himself utterly transformed by the experiences he had as a viewer.
