

Romeo's Poison (LilRomeo Diss Track)

(Intro)

Giving this bitch doctors medicine.
Let him overdose on it.

(Verse 1)

Murder this mic like black sabbath,
Leave him bleeding like "what happened"?
And then try and clean up the blood
with a motherfucking napkin,
You hear me clappin'
This overrated as fuck Michael Jackson,
This goddamned prostitute
Leave him choking on my dick with a passion,
But he still fapping off to the fact I slipped up,
But I find him always lackin',
He wishing for a genie with no lamp,
Wannabe Aladdin,

(Verse 2)

Promoting RBE like a trump supporter to the USA,
U always hear me down in the basement
writing a goddamned SA/essay,
Pass a giant F to this bitch who I won't let DK/decay, (Donkey Kong)
Almost like Katcolor's monkeys got to your brain,
And left betrayed by the same E.T who blocks your airway, (Romp.flu and probed)
With my cock and whip you like it's your birthday,
This shit is child's play,
But when you invade my domain you finna get
fucked over and sent away,
To the closest REHAB center,

Clean up your ashtray, Bitch.

Not done yet.

(Verse 3)

Play this bitch over and over like a cassette,
Let him drift down dead and crash the corvette,
Forfeit bitch or else,
Anybody can see the cold sweat,
He'll die by the shotgun blast,
Or from the fucking gas jet,
From the shit he's spitting
I'm spitting something you won't forget,
He only know 16 words of the fucking alphabet,
Light 'em up like a cigarette,
I'm a heavyset more shit than you can regret,
Your on my testicles blowing me like a clarinet,
Sellout only on the internet,
Wannabe slender kid sorry for the french,
But you can call me Lafayette.

(Outro)

You can call me a man of my word,
or of many words since this kid can't spit a damn rhyme.
