

About Basra Pearl

Basra Pearl is a highly precious variety of the natural pearl gemstone originated from the Basra region of Persian Gulf. The marine ecosystem of this region got depleted in the early 19th century which created a halt in the natural pearl production in the Basra region.

Why is the Basra Pearl Considered To Be The Best Pearl?

1 The Basra pearls are highly valued and known for their light scattering effects and their Purity. It's associated with the moon. " pearl" Belongs to the 'Moon' and the zodiac sign 'cancer'.

2 Basra pearls are light in weight as compared to other natural pearls.

3 According to astrology, the moon influences the human mind very much. Basra Pearl pacifies passions and mental inconsistency and strengthens the heart.

4 It was also believed that they had a strong effect on the mind. Owing to its rarity, even spotting a Basra pearl was considered a good fortune.
