

"Huge news, I'm afraid of Tottenham" Complete MF, returning after 8 months...Postecoglou Happy Screa

It's Rodrigo Bentancur. Bentancur is coming back. Britain's "Team Talk" reported on the 15th that "Bentancour is recovering well, so he can return as early as next month."

Bentancur scored the first goal in a 1-4 defeat against Leicester City on February 11. However, he injured his knee and was replaced in the 20th minute of the second half. After complaining of severe pain, he was seen leaving work on crutches.

Bentancur had a ruptured anterior cruciate ligament and was put on the operating table. I was very disappointed. He was at his peak last season. He scored five goals in 18 games.

Tottenham's midfield collapsed after Bentancur's injury. Antonio Conte put down the baton in March, and Tottenham remained in eighth place last season.

Eight months have passed. He is currently pouring heavy sweat into the final stage of rehabilitation training for his return.

Aston Villa legend Gabriel Agbonlaher said on "Football Insider" that "this is tremendous news" on Bentancur's return. "It's another option for coach Enzo Postecoglou. When I watched Bentancur last season, I thought, "This player has everything."

And "Bentancourt can play anywhere in the midfield. He can sit down deep as a defensive type and play, and he can be forward-deployed as an offensive type.

Tottenham's midfield has changed this season. Postecoglou built a triangle formation with James Medicine, Yvesu Bissouma and Pape Sarr. [투투사이트](#)

It shone. Tottenham is a surprise leader in the English Premier League (EPL) in the 2023-2024 season with 20 points (6 wins and 2 draws). It stands out that there is not a single defeat.

If Bentancur returns, the midfield is expected to face another change. Agbonlaher said, "Coach Postecoglou gave Sar the role. I think Bentancur will be put in place of Sarr when he returns. Then midfielders will be formed with Bissouma, Bentancur and Madison. I'm scared," he said.
