The makers of Adipurush are not releasing the film in August because the VFX of the film is not ready

Saif Ali Khan, Prabhas and Kriti Sanon starrer Adipurush is one of the much-anticipated films which should be delivered in August this year. In any case, the south genius declared another delivery date on Instagram with a staggering new banner of the film. Keep reading for more [latest bollywood news](#).

After many postponements, Om Raut's period show is at last delivering on January 12, 2023. Despite the fact that it's a seriously significant delay for fans however we are excited to the point of getting the delivery date. Presently the most recent report uncovers the genuine purpose for the deferment of the film.

According to the ETimes report, the creators of Adipurush are not delivering the film in August in light of the fact that the VFX of the film isn't prepared. The report cited a source as saying,

"VFX takes time. The makers, T-Series, have a phenomenal item close by. They don't want to hustle along for only the hell of it."

Going by the report, it will merit the hold on to watch Saif Ali Khan, Prabhas and Kriti Sanon starrer in films. With the broad VFX work on the film, it has just increased the energy among the fans. The Telugu hotshot on Tuesday declared the film's new delivery date that read, "On the promising event of Mahashivratri, reporting the delivery date. January 12, 2023."

The banner read Adipurush is for "praising triumph of good over evil." He likewise affirmed that the film will have a "overall dramatic delivery in 3D."

For the unversed, Om Raut's Mythological period dramatization Prabhas assumes the part of Adipurush or Lord Ram while Saif Ali Khan assumes the part of enemy Lankesh. Kriti Sanon will assume the part of Sita and Sunny Singh will paper the job of Lakshman. The shooting of the film began in February 2021. Stay tuned to [Koimoi](#).
