

King Billy Casino is a new generation of online casinos that never shied away from thinking big

His Majesty has just joined hands with Big Time Gaming, a leader and pioneer in slot machine development. So we spoke to Volodymyr Hakusha, the CEO of King Billy Casino (the "First Road," as required by internal protocol), about the new partnership.

"At King Billy Casino we don't stop thinking big in every way possible. There are big wins, different ways of paying, big bonuses, big promotions, and of course big awards for our brand. So it's no surprise that we now have the privilege of giving our customers a great big time game slot!

Great slots that were in high demand for players are now out, including White Rabbit, Temple Quest, and Who Will Be a Millionaire, the slots that brought innovations from feature drop™. Personally, I would like to invite the players to the Kingmaker. I want to challenge Kingmaker with a slot for four kingdoms!"

Big Time Gaming is an Australian slot giant that prides itself on providing thought-leading ideas for the online gaming market. Their innovative and unique content meets the needs of a new generation of millennials players without ignoring traditional customer groups.

Kingbilly Casino is a new generation of online casinos available in six languages (English, German, Russian, Finnish, Norwegian, and Japanese), with impressive award records and equally impressive variety of games and features. Kingbilly is based on creating a great user experience around myths about Kingbilly and his kingdom and treats every player with the speciality they deserve.

Blackjack players at the Inter-Top Poker and Juicy Stakes casinos will collect \$2,000 in Blackjack bonuses during Blackjack Jackpot Week, which runs from Dec. 16-22. Players who earn a designated blackjack hand will also receive a \$5 to \$25 bonus. One will receive a \$500 jackpot prize for the player who wins the black jack hand. A total of 2000 dollars will be paid as a bonus. Meanwhile, this weekend is 35% cashback weekend for slot players.

"It's sweet to hit 21," said Intertop Poker's casino manager, "and it's sweeter to get a bonus on top of the dividend."

170 players earn \$5 to \$25 and one earns a \$500 blackjack bonus. Suitable natural blackjacks (10 ace, jack, queen or king, both of the same suits) earn a \$5 bonus. Small Suite 21 (21, 678) gets a \$10 bonus and Big Suite 21 (21, Aces 2,3,4,5,6) gets a \$25 bonus. The grand prize of \$500 goes to the first player to hit the right Big Suite 21.

Players can earn a blackjack bonus by playing the blackjack games regular blackjack, face up 21, double draw blackjack and perfect pair blackjack under the rucktab tab in the casino game section. The double draw blackjack allows you to redraw 15, 16 and 17 optionally on your hand. The Perfect Pair Blackjack pays 5:1 for natural pairs, 10:1 for pairs of the same color, and 30:1 for perfect pairs (both cards are in the same suit).

This bonus requires 15x bets. Players can play for three days with a jackpot bonus.

35% Cashback Weekend

The Black Jack Jackpot starts Monday. Slot players are taking a break this weekend. Anyone who plays the World Match slot without a win, even with a down payment on December 14 or 15, can ask for a refund of 35% of the down payment.

Intertop Poker and Juicy Stakes Casino operate crowded poker rooms and offer a huge selection of slots and table games. Last week, they added Betsoft's new Dragon & Phoenix to their growing collection of Chinese slot games.
