

Buy Hay Pellets online

[Buy Hay Pellets online](#)

[Buy Hay Pellets online](#), Hay Pellets are a very 'green' heating source. Pellet stoves produce 90 per cent fewer greenhouse gases than fossil fuels and are 10 times under the [EPA emission limits](#), May Miller said. "It takes 70 million years to grow a crop of gas or oil, 20 to 100 years or more to grow a tree, but only 70 days to grow a new crop of grass."

[Hay pellets](#) burn just as well as wood pellets.
