The Plan to Save the World

*Have you ever wondered why we go to war,
or why you never seem to be able to get out of debt,
why there is poverty, division, and crime
what if I told you there was a reason for it all
what if I told you it was done on purpose
what if I told you that those who are corrupting the world
poisoning our food,
and igniting conflict
were themselves about to be permanently eradicated from the earth
you might think that an idealistic fantasy
well let me tell you a story
we acknowledge there are criminals of course
they rob your house, they steal your phone
they can murder you too if they think they can get away with it
we have all experienced criminals in one way or another
criminals as we know are those who choose personal gain over the rights of others
with no regard for the law
but here is where you need to expand your thinking
criminals can also succeed in business and politics
and can be elected as our leaders
if a criminal became the president imagine what they could achieve,
they could use the full weight of their executive power to commit much larger crimes
and ensure they and their friends were enriched to the fullest extent possible
a criminal president could make alliances with other criminal presidents
and collaborate on more global activities
anything goes drug running, human trafficking, whatever makes the big bucks,
the 20th century was turbulent with war economic disaster famines and displacement.
we have always accepted these things as just human nature
and simply the way the world works, something inevitable*

and due to the weaknesses of human nature that drive us to these actions.
this is where we were all tragically wrong,
you are not a criminal , i'm not a criminal,
so how can we just assume that it is human nature that is driving all this pain and misery?
What if it wasn't human nature at all?
and as a result of something more deliberate.
we were taught that capitalism was the cause of a massive rich poor divide
and the reason for poverty which in turn is the reason for war crime and starvation.
others were taught that communism, the system of equal wealth across all people
was really to blame for the mess.
but you see folks, it is none of these things
it is not our nature to fight and be racist
it is not in our nature to rob from others
what you must learn is that it was the criminals all along,
yes they got power, more power than a criminal should ever have
they rose to the top of media companies that control our news and entertainment
they ascended to the top of the banking system,
also to the oval office, to brussels, to the vatican, to the crown,
they crept in quietly.
they became leaders of agricultural companies that have control over our food supply
also big pharmaceutical companies, the ones we trust to help us when we are sick,
nobody stopped them, they just recruited more criminals to help .
first they accumulated the worlds wealth,
they invented a system of money called central banking,
which lends money to government with interest that places countries into eternal debt
peoples death got less their wealth got more, much more,
when a criminal is already as rich as they can get,
protecting their ill-gotten gains becomes the priority.
angry citizens tired of being poor are a major obstacle
and can revolt if they suffer enough
the criminals needed to prevent this
so they diverted attention to the last remaining competitor,
the people of the world, you and me,
we were not happy being ruled by criminals
and having to work 3 jobs just to survive,
they know we won't accept it,
they use their control of the media to set black against white
woman against man
young against old

muslim against christian
they convinced us we were the ones who were the problem
so we would fight and destroy ourselves.
to get it done faster they attacked all aspects of humanity that make us strong,
like family,
using their influence over culture
they popularized lifestyle choices that led to a surge in broken homes,
lost youth, and substance abuse.
i could talk all day about how else they deliberately weakened us
and it would turn your stomach we were just trying to get on with living.
so where are all the good guys?
good people just want to get married, have kids, make a living, and enjoy their liberty,
well there were good guys, many, one became the president of the united states
in january 1961 he knew about these criminals and wanted them gone.
he knew their intentions for us all and he wanted to fight them sadly,
he had no idea how powerful they had become.
reagan also had good intentions for the american people,
he knew this criminal mafia controlled almost everything by this stage
including powerful rogue intelligence agencies
his economic policies were promising
but these criminals needed a weak america to hold on to their power
reagan was shown with a bullet
that a growing us economy and prospering citizens were not what the criminals wanted.
it was looking pretty grim for good people,
every time someone wanted to stand up and do the right thing
they got stopped.
were we ever to be freed?
these criminals are also known as the deep state or cabal
because of how they control things behind the scenes.
every president after reagan was one of these deep state criminals
and their empire got even stronger
with each bad president came new depths to which america and the world would sink.
the world collapsed into darkness,
do you need me to tell you how?
destroyed factories,
declining job numbers,
sicker people,
opioids,
destruction of iraq,

syria, and yemen with pointless war,
displacement of people into europe,
isis, terrorism, collapsed governments, poverty and genocide,
total misery, do you think that was inevitable?
Hell no,
well here is where things start to take a new turn
when the full picture becomes known,
it will easily be regarded at the greatest story ever told.
well here is the top line.
some good people still held positions of power,
they valued humanity and the rule of law,
while criminals discussed their game plan at bilderberg meetings
the good guys were making plans of their own,
the information age was coming to change history forever.
as the internet flooded into every home
and appliances became smarter
and when people started carrying tracking devices,
an opportunity to put an end to criminals all over the world was emerging,
we became connected, trackable, and surveilled,
but so did they.
they became dependent, just like we did, on email, sms, instant communication,
it made crime much easier,
but it also put them on a grid that if accessed by the right people,
would expose their crimes to the public and end their iron grip on us once for all.
in this new age of information
it was thought that the military should also have its own intelligence agency
to focus on cyber crime and espionage,
they called this the NSA, the national security agency,
the relevance of the NSA in the story cannot be understated,
here we had every phone call, email, and text
from every device stored and archived
whether it be someone making a doctors appointment,
or the deep state setting up a massive heroin purchase from the taliban
in the right hands, it would be enough information to expose the entire sinister criminal plot
to rob us blind and wipe us out.
hold that thought,
now I need to explain, the plan,
the good guys were devising a plan,
to reclaim the world from the cabal,

return it to the people,
it would involve alliances with multiple countries,
since the criminals had global ratlines to train
and other infrastructure in place that would need cooperation.
it came down to two choices for america,
one, a military coup to seize the government
from whichever cabal puppet was in the whitehouse at the time,
or win legitimately,
take control of the nsa,
expose the criminals for what they are,
and arrest them all,
obviously the first option would be very troubling for the public,
with people still preoccupied with cabal engineered social issues,
they would likely revolt, and hurt themselves, and others,
no, it would have to be the latter,
so they needed a candidate who could win, and win big,
many states like california had been so heavily inundated by criminals
that even the voting machines were electronically setup to swing votes whichever way.
it would need to be a very decisive victory.
good patriots in the us military and their global partners
asked trump to run for president
so they could take back control of america legitimately
without alarming the public,
trump was a good choice, obviously,
because he overcame the voter fraud and won
but he was a patriot, and he was loved and admired by the public
he was not interested in joining the cabal
mainly because they hated america and did not agree with them
on that point as soon as he showed interest in taking power,
they activated their media assets to viciously turn on him
thats when we saw the sudden hatred emerge
even when he won the cabal still had no idea what he was a part of
and the sophisticated plan that was about to unfold against them
shocked at their loss they mobilized their full arsenal
of intelligence, media, money, and technology
to try and take back power.
their people at the top of the doj and fbi put together a plan to frame trump
and have him impeached.
this is where we come back to the NSA again,

all the messages were stored and could be used to expose this plot
and prevent trump's overthrow.
and entire book will be written about the first two years of trump's presidency,
false flag terror attacks, downed planes, missile alerts, assassination attempts.
here is the point,
the world is currently experiencing a dramatic covert war of biblical proportions
literally the fight for earth between the forces of good and evil.
i can't put it in simpler terms,
but I can say it appears that the good guys are winning
the cabal had complete control over north korea,
they hijacked the kim dynasty took them hostage,
and worked to build up a nuclear arsenal to threaten the world,
kim jong un, suddenly embracing peace
was simply because the deep state was beaten and driven out.
isis was also destroyed in the year following trump's win
we are all starting to see the pattern
now that enough time has passed that our biggest global concerns are starting to recede
and peace is returning.
it is all evidence that the good guys are winning the war,
but we are still in the middle,
while a lot is improved,
it still puzzles many that known criminals are still free,
especially the higher ups like hillary clinton,
the bushes, and obama,
that is coming in the next chapter of the story
that's why we have Q,
the good guys with control over the NSA began the Q intelligence dissemination program
to invoke online grass roots movement that came to be called the great awakening.
it started on underground internet channels
and moved to the mainstream.
q has been a fun distraction for those who follow world events and desire truth
but it is about to begin a much more important and necessary phase,
keeping the public informed when the deep state war breaks out on the surface,
by this i mean high profile arrests, yes folks,
the criminals i'm referring to are famous politicians, actors, singers, ceos and celebrities.
people who have earned our trust, respect and admiration,
they have done very bad things that are all fully known and documented
and they will be severely punished,
those of us who have followed Q since the beginning

*will be here to help you make sense of the coming events
we are among the first to realize that our petty partisan divisions are trivial distractions
and we are all enslaved by a hidden enemy
we realize that the problem was never capitalism or socialism, democrat or republican,
black or white, muslim or christian.
we realize it was criminals who had too much power,
fellow slaves, it's time to buckle your seat belts,
recognize your true enemy,
and embrace a new future that we all owe to the brave patriots who risked their lives
to achieve this victory against the greatest force of evil the world has ever known.*
