

PioneerDJ Rekordbox 6 Emulator Release

0. Uninstall previous versions.

Clean up if you want :

%APPDATA%\Pioneer\

1. Block the access to following address.

Rekordbox calls home to verify the license.

cloud.kuvo.com

rb-share.kuvo.com

accounts.us1.gigya.com

us1.gigya.com

2. Install Rekordbox 6.

3. Copy our emulator "Isapiw64.dll" to installation dir.

4. This is optional. You can change your name, email, password.

See and add *.reg file to your registry.

Change the value if you need.

5. Enjoy!

At first run, it asks you to choose plan.

[Next] and [Skip] buttons are your friend!
