

# NEBS Server Market Share 2021: Global Trends, Key Players, Industry Analysis and Report 2021-2027

The global NEBS Server market is expected to grow at a significant CAGR during the forecast period (2021-2027). The NEBS (Network Equipment-Building System) is a set of international safety design criteria for telecommunications equipment. NEBS were created by Bell Labs in the 1970s to establish standards for telecom equipment so that vendors could design products that met universal safety and quality requirements. It has since become an internationally recognised method of determining whether electronics designed for telecom network use can operate reliably in harsh and demanding environments.

**A full report of NEBS Server Market is available at: <https://www.omrglobal.com/industry-reports/nebs-server-market>**

Telephone companies starting with Ma Bell and then, after divestiture, the "Baby Bells" (now called RBOCs - regional Bell operating companies) and LECs (local exchange carriers) rely almost entirely on NEBS-compliant hardware for their central office telephone network switching. This ensures that the equipment they purchase complies with well-defined criteria for temperature and humidity, fire resistance, equipment handling, earthquake resistance, vibration (both in the workplace and while being transported), airborne pollutants, and acoustic noise.

In February 2018, Intel launched its new Intel® Xeon® processor D-2100 product line, which includes the unique mesh architecture of Intel's Intel® Xeon® Scalable processor, which was first presented in mid-2017. The new CPU is used in Ericsson's NEBS3-compliant Ericsson Blade Server Platform 8100 (BSP 8100), which is one of the components of the well-established NFVi solution. NEBS (Network Equipment-Building Practice) compliance is an important aspect of hardware that should withstand a wide range of harsh physical environments.

## Market Coverage

- The market number available for – 2020-2027

- Base year- 2020
- Forecast period- 2021-2027
- Segment Covered
- Regions Covered- Globally
- Competitive Landscape: Asentria Corp., Cepoint, Bomara Associates, ComnetCo, Cimetrics Inc. among others.

### **Key questions addressed by the report**

- What is the market growth rate?
  - Which segment and region dominates the market in base year?
  - Which segment and region will project fastest growth in the market?
  - How COVID-19 impacted the market?
- o Recovery Timeline
  - o Deviation from pre-COVID forecast
  - o Most affected region and segment
- Who is the leader in the market?
  - How players are addressing challenges to sustain growth?
  - Where is the investment opportunity?

### **Global NEBS Server Market by Segment By Type**

- First Level
- Second Level
- Third Level

### **By Application**

- GR-63-CORE
- GR-1089-CORE
- Data Center
- Others

### **NEBS Server Market– Segment by Region North America**

- United States
- Canada

### **Europe**

- Germany
- United Kingdom
- France
- Spain
- Italy
- Rest of Europe

## **Asia-Pacific**

- China
- Japan
- India
- Rest of Asia-Pacific

## **Rest of the World**

- Middle East & Africa
- Latin America

## **Company Profiles**

- Asentria Corp.
- Cepoint
- Bomara Associates
- ComnetCo
- Cimetrics Inc.

## **Reasons to Buying From us –**

1. We cover more than 15 major industries, further segmented into more than 90 sectors.
2. More than 120 countries are for analysis.
3. Over 100+ paid data sources mined for investigation.
4. Our expert research analysts answer all your questions before and after purchasing your report.

## **About Orion Market Research**

Orion Market Research (OMR) is a market research and consulting company known for its crisp and concise reports. The company is equipped with an experienced team of analysts and consultants. OMR offers quality syndicated research reports, customized research reports, consulting and other research-based services.

**Media Contact:**
