

How much baggage is allowed in Lufthansa airlines?

I usually travel to different countries for spending vacations or for companies work purpose so I prefer to have the international flights. Now as I wanted to fly to Dubai and I was searching for the airline who has the best baggage policy. So I visited airlinestips.com and searched for Lufthansa airlines. After that I got their contact number from this website and I contacted to their customer service team. When I contacted them I asked How much baggage is allowed in Lufthansa airlines? They further informed me that for international flights, Lufthansa's baggage allowance is 1 bag of 50 pounds, for economy flights 2 bags are allowed for 50 pounds, for premium economy, 2 bags of 70 pounds and for business and first class 3 bags of 70 pounds. These were the information which was enough for me and then I booked flight tickets to fly to Dubai.
