We currently have a wide range of so you can choose the one you like the most or the one that best suits the type of celebration so that you have a decoration to match the circumstances and all the attendees, including the person whose birthday is in question, keep a nice memory for later.

Decorating with [birthday balloons](#) is one of the most original and striking things that can be done, since thanks to the color and the infinity of possibilities that they offer will cause a great visual impact among the guests, I encourage you to take into account our product more sold, Happy Birthday 30 helium balloon 46 cm , undoubtedly one of the most original and striking.

Our fabulous birthday balloons can meet your needs in the best possible way, since thanks to the excellent quality of the raw material with which they are made, they can be inflated with both air and helium .

This expands the range of possibilities offered by balloon decorations for birthdays, since the decoration will take on another meaning.

If you choose to use helium-inflated birthday balloons, you will make them stay suspended in the air creating effects full of movement and color for more than 8 hours.

The decorations will come to life, as the balloons will be in continuous movement , surprising all the party goers leaving them with their mouths open.

Do not limit yourself when creating your own decorations made by [a4 acrylic sheet](#), since the most essential thing is originality, also, we all know that for tastes, colors.

Come up with designs, shapes, everything that comes to mind will look good with our sensational birthday balloons, so don't put limits on yourself.

That is why we offer a wide range of colors so that you can select your favorite, such as blue, yellow, green, red, orange, pink or white , or the one that best combines with the party, in addition to various sizes and models. .

We want to highlight our best-selling colored balloons:

Round Latex Balloons 30cm

Round latex balloon 25cm

One of the models that are becoming more fashionable are the original led birthday balloons.

This incredible model will create a great visual impact among the guests since they are capable of lighting up , illuminating the decoration in an original and showy way.

Inside we find a led bulb, which will allow the birthday balloon to be on for 24 hours, more than enough time to keep the party atmosphere at all times.

This particular model can also be inflated with helium , the only thing to consider is the amount of gas, since the bulb and the built-in batteries add extra weight to these birthday balloons from [Shop Online Gift](#) . That is, it will take a greater amount of helium to make it levitate in the same way as the rest.

Do not hesitate to use personalized balloons for birthdays on one of the most special days of the year. Ensure an original party full of color with one of the most famous items in the world.
