

## bhandardara camp

The campsite will be at [Bhandardara](#) which is in the interiors of Maharashtra and one of the darkest spots in our state with the least amount of light pollution you will witness the darkest night sky possible. One may see the Milky Way with their naked eyes and spot numerous stars and galaxies that are never visible from the city. For all astrophotography lovers, you will be able to take some killer star-trails and Milky Way pictures. Its gonna be a treat for your lenses. Or if you get tired, you may chill in one of the open tents and immerse yourself under the sky filled with gazillion stars. There will be a live solo performance by a singer Hindi songs. In the morning relax in the boat ride around the lake. Bhandardara Hill station near Mumbai is very popular among travellers looking for a relaxing weekend.
