

# SAA Approved Australia 3 Pin 10A 250V Type I Plug Power Cord

The Type I plug has two flat pins in a V-shape as well as a grounding pin. A version of the plug, which only has the two flat pins, exists as well. The Australian plug also works with sockets in China.

Australia's standard plug/socket system is rated 10 amps but a plug/socket configuration rated 15 amps also exists, although the ground pin is wider. A standard 10 amp plug will fit into a 15 amp socket but not the other way around.

## Quick Details Of ZH-41A Power Cord Plug

Product name: SAA Approved Australia 3 Pin 10A 250V Type I Plug Power Cord

Place of Origin: Jiangsu, China

Brand Name: ZHONGHUI

Model: ZH-41A

Plug Type: Plug Type I, Australia Plug

Application: Home Appliance

Certification: ISO9001, SAA, RCM

Used in: Australia, New Zealand, Papua New Guinea, Argentina

## Technical Details Of ZH-41A Power Cord Plug

Insulation Material: PVC or Rubber

Conductor Material: Copper

Rated Voltage: 250V

Rated Current: 15A

Input Power: AC Power

Standard: AS/NZS3112

Production Capacity: 80000PCS Per Month

## Features of PVC ZH-41A Power Cord Plug

1. The PVC wire tube has excellent weather resistance, acid and alkali weathering resistance, and has a service life of up to 50 years.
2. The PVC [ZH-41A Power Cord Plug](#) has excellent electrical insulation and flame retardancy, and is an excellent safety protection sleeve for wires and cables.
3. The PVC wire pipe has good mechanical properties, and the pipe is difficult to break.
4. The SAA Power Cord Plug has good flexibility and can be tilted.
5. The PVC wire and tube are transferred with solvent-based adhesive, and the installation of the pipeline is fast, convenient and economical.
6. The PVC wire and tube are made of new environmentally friendly materials, which will not cause environmental pollution.
