

## Model Portfolio Photographer: preparation and technical requirements

Building a portfolio is the first step in becoming a model and it helps a lot in getting a decent “look” in front of the agency. There are many ways to create a portfolio, but whichever way you choose, you must keep in mind that your portfolio is an extremely important “accessory”. An experienced [model portfolio photographer in Melbourne](#) can create your portfolio that will be the first impression and the best chance of getting a modelling job. So, how is a model portfolio created?
