GameJet gaming token is going to be one of the absolute and revolutionary digital tokens in 2021. The best thing you will enjoy about this token is it gives you an opportunity to freely grab a total supply of 1,000,000,000 JET (1B). The platform is currently running a registration and referral program to distribute 50 JET tokens on each set. Not only this event but also a bounty campaign serving 25 million tokens are on your doorstep to make revolutionary changes.

This project is definitely the future of the upcoming crypto industry, and you should acknowledge the time and opportunity efficiently. We are aiming to reach out on a global scale leveraging the blockchain system. If you are willing to participate in this revolutionary project, look into the details, factors, whitepaper, and future milestones to join our journey of success. Let's start by introducing the project in a gist. GameJet Network is a gaming development Defi platform built on Tron-based standards and protocols. We have focused on players looking to buy games and in-game items along with launching our native currency- JET tokens. JET is basically a utility token developed on the Tron TRC-20.

We emphasize achieving wide adoption of blockchain tech applications by combining decentralized finance (Defi), scarcity (NFTs), and entertainment (gaming) into a whole new space. While analysing the crypto marketplace, we have come to a conclusion that this industry works on four main pillars that is essential in widespread adoption. They are Innovation, Mass Adoption, Security, and Regulation respectively.

What is a JET Token?

JET token is popular as the best decentralized financial cryptotoken that intends to lead the industry in the upcoming phases with a plethora of benefits. Indeed, this asset will make promising changes required in the gaming industry and crypto space by reaching out to crypto traders, investors, and gamers worldwide.

We are here to present a bunch of innovative projects developed by creative thinkers to make revolutionary growth and advancements in global transactions. Indeed, this token will soon be known as one of the most popular and best digital tokens to invest in 2021.

JET Token Distribution

The overall token supply of Jet token is innovative, 20% of the token supply is raised for the initial burn as per the carefully analysed distribution of assets. In presale, around 40% of the total supply is decided to be distributed with the initial pricing.

The distribution is considerably made on the following factors including the initial Dex offering, future locking, presale attributes, innovation projects, marketing purposes, team and advisory, advance ecosystem, and bounty and airdrop campaigns.

Every mentioned factor holds a certain amount of token supply, whereas the public sale and presale cover an equal share of 40% of the total supply each. Besides that, the liquidity lock covers 20% and transaction token burn covers 20%, Devs and Marketing holds 20% respectively. If you want to understand the token distribution more in detail, take a look at it:

Why is GameJet Good for Investors?

Referral Bonus

GameJet decides to provide a referral bonus for every investor. Now those who are willing to invest in our project and be a part of the GameJet future are humbly welcome. We are looking to expand our network and project while taking in many more investors to join our journey.

The referral bonus is set to be sent to the investors' wallet right after any of the existing holder's referral purchases JET. Also, after a duration period, the investor will also receive an incentive for the transactions automatically.

GameJet- An Innovative Project

To raise the popularity of GameJet Network globally and JET as the fastest-growing cryptocurrency, we are focusing on the expansion of the industry. To make this project a highly renowned gamer token, we will aim for a significant amount of time, energy, and required funds for future investment.

After token distribution, all the funds received are further redistributed to building games, GameJet DEX, product brands, and DApps. 20% of the token supply will be invested on the GameJet team for expanding and exploring the industries. Not only enhancing the market space but also this token fund will be delivered for marketing purposes to promote the project on various channels.

Revenue Streams of GameJet Tokens

GameJet Games

The GameJet game will be designed and developed using multiple technologies combining the latest tech protocols and concepts like augmented reality, virtual reality, and artificial intelligence resp. We will also use haptic technology to advance and enhance the gaming sphere. The combination of these technologies with blockchain is best to create a new innovation of games.

The revenue generated after downloading these games is set to be invested in strengthening the GameJet community and the gaming industry as a whole.

Utility Applications

GameJet is now considered a specialized and sophisticated gaming application developer to build high-end products and future multilevel games. We are aiming to announce a kind of application to reduce the complexity and issue of cell phone theft.

Decentralized Applications

We consider our plan to be a growing movement happening to reinforce the blockchain and gaming industry altogether on the basis of business models. The DApps developed on GameJet Network are projected to empower the mega projects running in the large-scale marketplace.

Final Words

The JET token is the best-recommended token to invest in 2021 that will transform and advance the life of gamers. Currently, there are around 2 billion gamers worldwide, however, they still don't receive bonus points and rewards. Using the GameJet platform with JET tokens the user will attain some innovative changes in the future.
