Other things to keep in mind

A little bit of preparation and prior knowledge is essential to make your Morning Desert Safari Dubai enjoyable and uninterrupted. Most important of all is your dress code. As you know, the

temperature in the desert is too high, and therefore it is highly recommended to wear clothes that are breathable and made of either cotton or linen fabric. Although shorts are ideal to wear in a high-temperature zone, we don’t recommend it if you plan to get involved in any desert activity like sand-boarding or quad biking or camel ride as while doing these activities, the chances of sand gathering in your body is high. Therefore, it is advisable to sport dresses that fully cover your body and are loose-fitting and breathable. With regard to your footwear, anything like sneakers or flip-flops would do. There again, if you intend to do sand-boarding, bring along sports shoes recommended for such activities.
