## Great Baby Gift Basket Ideas

To iron a little moist silk, the iron temperature level need to be 250 to 300 degrees Fahrenheit, and you must not use high heat or steam on silk. Iron the material on the reverse side. It's bad to expose the silk garments you're washing to strong sun or dry heat for long since they will cause the fabric to fade. You can utilize an indoor clothing line or a wood fold-up drying rack. When saving silk, do not put garments in plastic bags. If you want to wear body cream, cologne, or deodorant with a silk garment, apply it to your skin and then wait a couple of minutes before putting the garment on.
