

What are the top 5 smart and casual shirts for men?

We all know, a man always picks shirts according to the situation he is in. It's just that he needs to take the season into consideration. And after that, he can start shopping for **casual shirts for men**. If a man is planning to shop online, he is going to see a lot of options which are well organized, sorted into colours, sizes, prints, checks, or maybe plain denim.

Casual Shirts

In that case, it is important that you must know the trend before you shop. So, we curated the best styles to suit your different moods.

Let's begin:

1. **The linen shirt:** It's a battle to stay cool and stylish both at the same time. However, this is not the case with a linen shirt. This fabric is excellent at wicking moisture (perfect for the monsoon), is airy, dries quickly and is super stylish to wear. The fitting is irreplaceable. With seams that sit on the shoulders and a hem that sits just above the hips, it is neither too slim nor too loose. However, choose cool colours for maximum cooling.
2. **The cute polo shirt:** This is the perfect kind of shirt when you do not want to look too smart or too sloppy. The fit of a polo shirt is slim and is not too tight. The seams sit perfectly on the shoulders and, if you buy short-sleeved, the sleeves remarkably sit a few inches above the elbow. Despite the fact that it is a casual shirt, a knit polo looks surprisingly good with custom tailoring. Wear a suit without a dress shirt or go the separates route and wear one with drawstring pants and an unstructured blazer in contrasting colours.
3. **The chambray shirt:** If you are one of those who are not experiencing torrential rain and rather live in a warm and windy climate, then this shirt is for you. It is the colonial cousin of the denim shirt and is charming to look at and adds dozens of personalities to the wearer. But the main line of difference between a chambray shirt and denim is that the fabric used in a chambray shirt is easy on the skin, and the texture of the denim is way more cumbersome than that of a chambray shirt.
4. **The band collar shirt:** Band collar shirts vary a lot from garment to garment, but generally speaking, it's best to opt for a classic fit. This is the most adaptable option and compliments the majority of body types. Many would dis-argue that it looks like formal wear, but unfortunately, the band collar gives out a casual vibe.
5. **The artsy Cuban collar shirts:** Spread collars, which show more of the chest than traditional collars do, and eye-catching designs are elements of the style. However, a simple Cuban collar shirt is also a useful item to have because it captures the same carefree attitude in a somewhat more understated way. Due to the loose, airy quality of Cuban collar shirts, we think it is advisable to avoid wearing them too tightly. When your torso warms up, you'll feel more comfortable and have a wider range of motion.

These are the top five smartest casual shirts for men that you shouldn't miss. Some of the shirts are so cool that if you pair them with the right accessories, you can wear them for the festive season too.
