Rebecca Campbell: US Government Loses Vaccine Lawsuit — Has Lied to the Public for Decades — Vaccines NOT Tested — Autism Will Drop If Parents Use This Case to Legally Challenge Mandated Vaccinations.

Vaccine injury lawyer Robert F. Kennedy Jr., Del Bigtree, producer of the suppressed anti-vaccine documentary, Vaxxed and the Informed Consent Action Network (ICAN) are credited with this victory. They demanded the relevant government documents proving that all federally approved vaccines had been tested for quality over the past 32 years — and there were none.

There are the huge legal and practical implications in this legal victory for the American people. [\(More\)](#)

"Before accepting vaccinations for you or your child it is critical to get the providers of those vaccines to [sign this form](#) accepting liability..."

The VACCINATION NOTICE And Acceptance of Liability by the vaccination providers

Vaccinations have been proven to be extremely hazardous, unsafe, contaminated and often completely ineffective.

They have even been used to fraudulently deliver sterility drugs under guise of "Malaria" vaccines! Tens of thousands of people are killed every year by vaccines, millions are injured permanently worldwide. Even after decades of tragedies and atrocities caused by vaccinations, pharmaceutical interests have been allowed to buy corrupt legislation to try and force literally every American to accept this invasive and dangerous treatment. Vaccines have been scientifically found to be associated with a modern Autism epidemic and a host of other crippling and life-threatening injuries, illnesses and unexpected consequences.

Pharmaceutical companies have even obtained legislation making themselves IMMUNE FROM LIABILITY for the harm they know vaccines cause!

People only seek immunity when they KNOW THEY ARE GUILTY. If you feel you must accept a vaccine, DO NOT do so until you **REQUIRE THE VACCINE PROVIDERS AND REGULATION ENFORCERS ACCEPT LIABILITY FOR THE DAMAGE THEY CAUSE** with the free download contract form above called "**Vaccination Notice**".

Before accepting vaccinations for you or your child it is critical to get the providers of those vaccines to sign this form accepting liability and admitting the hazards so that you will have recourse against the many serious injuries and illnesses which vaccines are known to cause. You are welcome to modify the form or have an attorney do so, it is a free template. Vaccine providers and regulators may refuse to sign this form because they know they are peddling poison, but refusal to sign the form is ADMISSION that harm may result from the

vaccination. If vaccinations were truly harmless, they would gladly sign the form and accept liability. If the vaccination providers do not sign the form, and thereby infer that vaccinations are hazardous, they have no right to demand that you accept their dangerous and ineffective medical treatments.

By the way, if you disagree with any of the above points and you believe people may be forced to accept risky medical treatments such as vaccines, then contact us. You may be invited to participate in a videotaped and published debate opposite medical researchers and scientists on the health effects and safety record of vaccines. Can you support the idea of mass forced vaccinations by non-physician politicians? Here's your chance!
