## **Segmentation:**

The floral industry is divided into four categories based on type: cut flowers, bedding plants, potted plants, and others. In 2020, the Cut Flowers category accounted for 83% of the market. Due to their attractiveness and lovely scent, cut flowers are becoming more and more popular with customers, which is why the market is growing. Cut flowers are also simple to handle and harvest, disease- and pest-resistant, and straightforward to maintain. Since cut flowers are Kenya's second-most exported good after tea, the sector is anticipated to make a major contribution to the country's GDP.
