

Automatic Palletizer And Depalletizer Market Segmentation: A Comprehensive Overview

The global [automatic palletizer and depalletizer market](#) size is anticipated to reach USD 2.30 billion by 2030 and is expected to expand at a CAGR of 5.1% during the forecast period, according to a new report by Grand View Research, Inc. The market is gaining momentum as industries increasingly embrace automation to streamline operations and boost productivity.

One of the primary drivers is the growing complexity of supply chains, which demands faster, more accurate handling of goods. Automatic palletizers and depalletizers offer a reliable solution for managing high volumes of stock-keeping units (SKUs), especially in multiline production environments. Their ability to reduce manual labor, minimize errors, and enhance packaging consistency makes them indispensable in the food and beverage, pharmaceuticals, consumer goods, and logistics sectors.

The rise of e-commerce and the demand for rapid order fulfillment have further accelerated the adoption of these systems. As online shopping continues to surge, warehouses and distribution centers are under pressure to process and ship products efficiently. Automated palletizing and depalletizing systems help meet these demands by improving throughput and enabling scalable operations. Additionally, advancements in robotics and AI integration are

enhancing the versatility of these machines, allowing them to adapt to various product types and sizes with minimal reconfiguration.

Sustainability is also contributing to market growth. Manufacturers are investing in energy-efficient and environmentally friendly designs that align with global sustainability goals. Coupled with a shortage of skilled labor and rising labor costs, the push toward automation is not just a trend—it's a strategic necessity.

Further key findings from the report suggest:

- In terms of type, the palletizer market segment led the market and accounted for 65.6% of the global revenue share in 2024.
- In terms of product, the straight-moving segment market dominated the global market with a revenue share of 71.6% in 2024.
- North America's automatic palletizer market dominated the global market with a revenue share of 32.5% in 2024.
- The automatic palletizer and depalletizer market in U.S. is projected to grow at the fastest CAGR of 6.3% over the forecast period.

List of Key Players in the Automatic Palletizer And Depalletizer Market

- Mitsubishi Electric Corporation
- Kawasaki Heavy Industries, Ltd.
- ABB Ltd.
- FANUC Corporation
- Yaskawa Electric Corporation
- KUKA AG
- Krones AG
- Brenton, LLC.
- DAN-Palletiser A/S
- Remtec Automation, LLC.
- Bastian Solutions, LLC
- Ehcolo
- Columbia Machine, Inc.
- Pester pac automation GmbH
