

I was initially mosting likely to try utilizing this in the highchair straps that I had no bands for, yet I initially tried it at the table on the rounded back chair and also fell in love with it that way. So the high chair is bye bye. I love that she definitely could not stand up while it's on/she's in it. I purchased this certain one since I adore the material, as well as I'm pleased I did. It's super simple to place on!! I did it myself in less than a couple of mins - for the very first time, that readies! It'll work in dining establishments (so small and also easy to load along, bringing the pillow she remains on the chair with as well, though). I picture it'll take a min only to place on a different chair. We got this to make use of while traveling with the baby for the very first time while she was 8 months old. She is extremely average sized (30% wt & ht), this thing exercised much better than I thought. She was as well small for many restaurant high chairs, however not the totseat, we also utilized it at my relative's house considering that

they didn't have a high chair available. Infant consumed excellent. Just adjustment I made was to buckle the fastening with the cinch loop at the rear of the chair to maintain the seat a bit greater on the baby. Aside from that, perfect!! love this

. My 18 month old obtains sidetracked resting at the table youngsters table" with his sister. It's soft as well as adjustable yet still sturdy enough that he could not leave it (or turn the chair while doing so). As I said I utilize it on our folding kiddy table chairs as well as (although slightly huge) it still functions like a charm. Currently we don't need to transport a booster/travel chair or a highchair with us when we take a trip!"Totseat is extremely mobile. We do not utilize everything the moment but we maintain it around when going to different dining establishments as well as visiting pals that do not have highchairs. It fits numerous chair kinds. It is extremely functional. We utilized it extra last year after our child could sit. A year later, he is a lot more mobile as well as no more desires to be strapped. Now, we still bring it around however, for our younger daughter. My mommy didn't wish to buy a high chair for our browse through to England due to the fact that area is limited and we were going to be taking a trip within the UK, and afterwards on Greece. She did some research and also discovered this on Amazon.com, as well as bought it for us. It is FANTASTIC! We utilized it on different chairs at dining establishments, and also whatsoever the places we stayed. Our baby enjoyed, safe and we simply folded it up when we were ended up, popped it in the bring bag as well as we were ready to go, plus it really did not mess our holiday rental cottage. Currently we have actually brought it home and also can use it when we most likely to good friends or bent on eat. Instructions are clear and also adjustments are easy. A TERRIFIC [harness for highchair](#)

. We have just bought an additional one for a friend's child shower. Get one, it's worth it. I would certainly even utilize it at home if we didn't currently have a high chair.
