

Create Innovative Advertising Films and Branded Content with Culture Kid Films

We create innovative advertising films and branded content. As a film and <u>video production</u> <u>Hong Kong</u> based company in Sydney, we produce films and content internationally with a global mindset. We are filmmakers, creatives, producers, editors, and animators. We are Culture Kids. As Third Culture Kids we bring experience and a more global view of the world. We use this to create films and content that are break-through, cross cultural boundaries, and that look and sound great. We're a video agency that calls Hong Kong and Sydney home and we produce films and content internationally with a global mindset.
