

# Heavy Need of Manpower Recruitment in Europe

Due to the pandemic situation, a huge demand for [Manpower Recruitment](#) in Europe has increased drastically. A decline in the economy has been observed in the whole world that has given rise to the increased need for manpower requirements.

One of the biggest challenges that Europe faces is retaining their best candidate in the long run and due to pandemics they are more dependent on automation for their work execution but no automation has the power to replace the impact that manpower creates and the kind of connection they have with the work.

India has always been a hub for manpower recruitment for catering for the need in India as well overseas. India provides the best manpower in many fields; A lot of **Manpower Recruitment** agencies in India are deploying skilled and qualified manpower in European countries. Various Manpower Recruitment agencies in India contract with several European companies as well as with various European manpower agencies for the deployment of skilled manpower from India to European countries. These recruitment agencies are specialized in their profession as through their recruitment methods they recruit the best-skilled person according to the needs of the prospective companies in Europe. Various job vacancies are vacant which need to be fulfilled immediately so that companies in Europe can work smoothly. There is a great need for manpower for various industries in Europe like health and medical services, hotel and catering services, facility management, oil and gas, the marine industry, infrastructure and construction Industry. Ajeets as one of the top recruitment agency act as a bridge to reduce the gap in this field by providing the best human resources and skilled professional such as doctors, health workers, chefs, managers, receptionist, front desk helper, construction worker, skilled labour and many more from India, Nepal, Sri Lanka, Bangladesh, Kenya and Philippines to all European countries.
