

# 5 Winged Eyeliner Styles That You Should Try, Instead Of The Boring-Old One

Winged Eyeliner is one of those makeup techniques that's hard AF, no matter how big of a professional you're in the makeup department. There's just too much to balance and think about while doing a winged eyeliner, however, the end result is what matters the most. It makes your eyes look all sorts of fancy and more than that, it converses how much effort you put into it, something the world should constantly be thankful for, don't you think?
