OUTLOOK EMAILS STUCK IN OUTBOX

Outlook is a great software tool that increases your productivity by helping you intelligently organize daily schedules. But, sometimes, even Outlook throws an error at you, which may be a little frustrating. Today, we shall see how to fix one such error – Outlook emails stuck in outbox.

1. Your email may have a large attachment exceeding the limit.
2. You might be reading an email from the outbox while the new email is waiting to be sent.
3. Outlook may be set on Work Offline mode.

02

EMAILS ARE MOVED TO YOUR OUTBOX

1. Ensure that your ISP is not blocking the port number you are using for the outgoing server.
2. Check with your email provider and make sure that the mail server settings are updated. The port number or authentication methods may be changed by the mail service providers.

03

INITIAL TROUBLESHOO TING

1. First, launch Outlook.
2. Click the Send/Receive button

04

button.

3. Choose Work Offline to prevent Outlook from sending all emails.
4. Click the Outbox.

**REMOVE THE
STUCK EMAILS**

05

**TRY AFTER
CHANGING
YOUR
PASSWORD**

1. If the email account password doesn't match the Outlook account password, the Outlook emails will be stuck in the outbox.
2. So, you need to change the email account password and Outlook password too.
