

Pak witnesses 24% increase in militant attacks in April: Think tank

Militants carried out 34 attacks in April, killing 55 people, including 34 security forces personnel: Pakistan Institute for Conflict and Security Studies

Pakistan has witnessed a 24 per cent increase in the number of militant attacks in April as compared to March 2022, according to data released by a think-tank.

Militants carried out 34 attacks in April, killing 55 people, including 34 security forces personnel. Thirteen civilians and eight militants were also killed in these attacks, while 25 people -- 11 security personnel and 14 civilians -- were injured, Pakistan Institute for Conflict and Security Studies (PICSS) said in a press release on Wednesday.
