Do you want to develop or increase your dive skills, learn new things and expand your scuba knowledge? Do you know that you can learn new **diving skills** without going underwater? You can! Check out some of our favorite courses which you can take online from home!

## ReActivate Scuba Refresher Program

Has it been a while since your last dive and you want to recall some of the important basic underwater skills before moving on? No problem, the [PADI ReActivate Scuba Refresher program](#) is specifically designed for you. The purpose of this is to get you back in the water and feeling confident about your abilities! [Start the PADI ReActivate eLearning course here.](#)

## Underwater Photography Specialty Course

It's hard to explain to non-diving family and friends some of the creatures that we see underwater, but with amazing images, you don't need to! Become expert in the techniques required to produce sharper and more colorful photos which will impress your colleagues and land-loving friends. Say goodbye to hazy images and say hello to an Instagram-able

underwater moment! [Start the PADI Digital Underwater Photography Specialty eLearning course here.](#)

## **Project AWARE Specialist Specialty Course**

Learn about the **Project AWARE's** vision and mission, and how you can make a change in the **Project Aware Specialist course**. You will see how you can help to conserve our oceans on every trip and every dive that you make as well as how to use the power of social media to spread the word. Be the change you want to see in the world! [Contact your local PADI dive shop to get started.](#)

## **Enriched Air Diver Specialty Course**

It seems unfair while you have plenty of air left and your computer shows that you need to shallow up. Diving with Enriched Air Nitrox increases your allowable bottom time that means you can admire the depths of your favorite sites for longer.
