TBRC's market report includes a chapter on the COVID-19 impact on the anti-thyroid drugs industry, which gives valuable insights on supply chain disruptions, logistical challenges, and other economic implications of the virus on the market and how companies can strategize to bounce back from it. With updated market numbers according to the effects of the coronavirus, the report provides the most accurate expected anti-thyroid drugs market growth numbers from 2022-2031.

### **Request a Sample of the report:**

<https://www.thebusinessresearchcompany.com/sample.aspx?id=3401&type=smp>

The global anti-thyroid drugs market size is expected to grow from \$2.32 billion in 2021 to \$2.42 billion in 2022 at a compound annual growth rate (CAGR) of 4.4%. The growth in the market is mainly due to the companies rearranging their operations and recovering from the COVID-19 impact, which had earlier led to restrictive containment measures involving social distancing, remote working, and the closure of commercial activities that resulted in operational challenges. The global anti-thyroid drug market is expected to reach \$2.72 billion in 2026 at a CAGR of 3.0%.
