

## [Page 76](#)

### **Page 1**

Manigoldo - Oh, fuck! We are just wandering around without knowing where to go .... our masters only pass us boring missions! Hey, Shion! Still heard no voice in this mysterious cemetery?

Shion - It would not be a test if I could hear the Aries voice in my mind. We need to keep looking, manigoldo.

### **Page 2**

Manigoldo - Mission or not ... it would be good to know where we are going. No drink ..... no woman ..... what a sad journey ....

Shion - what does our mission have to do with drinks and women?

Manigoldo - A brat like you could not understand! Look around you! There is no shadow of a village at all! It looks like the entrance to hell! This way, I'm going to get crazy if I keep going around here!

### **Page 3**

Shion - It's not so bad, if you consider it a test to become a Gold Saint

Manigoldo - Yes .... but I was forced to come ....

Shion - Anyway, I believe this is the right direction. My master told me that this is the place of the tomb.

Manigoldo - True..... he said that here were the ruins of the ancient lost continent of mu. but it's been 250 years since this occurred ....

### **Page 4**

Manigoldo - Well ..... I think it would do us good to slow down a little ...

Here..... It's here....

### **Page 5**

-It's here!

Manigoldo - What? What is it?

Shion - I heard .... the voice of Aries .... the grave is around here, I'm sure ....

Manigoldo - here? I do not know...

### **Page 6**

Shion-That glow is .... star dust.

Manigoldo -I see....But I do not think there's going to be anything here, even if you look hard enough.

So what are we going to do?

### **Page 7**

Shion - These rings of light .... are enveloping us ... what .... are they ?!

## **Page 8**

Manigoldo - Our bodies .... breaking in the light .... at this rate we will go! To be .... annihilated ...

## **Page 10**

Hakurei - Their cosmos ..... are gone! Yes .... and now .... yes .... everything will depend on the connection between shion and avenir .....

## **Page 11**

Hakurei -Now .... I only know what will happen to this young man ....

Sage - I pray for your loss, brother. You're very worried. Because of Shion's task of recovering the armor and becoming a saint. But, given the current situation, we can not lose the gift of Shion ....

Hakurei - Yes, there is no other way .....

## **Page 12**

Hakurei - It's been 250 years ... and all we tried was useless ....

Sage - yes ... avenir was buried in the lands of the descendants of mu.

But soon after the holy war, that place was swallowed up by the tibet. We tried to find him more than once, but the future disappeared completely...

## **Page 13**

Sage -I believe ... it was really his time, after all.

Hakurei - Who would have guessed that shion would hear the voice of the Cloth so long gone ...

Sage - Besides, my brother ... .. if my suspicions are correct, this mission ....

## **Page 14**

Hakurei - despite your doubts, it was essential to recover the Aries Cloth before the holy war.It's almost time... is it that you sent me manigoldo for having perceived this for yourself, my brother? I have full confidence in your tricks, just as I trust in my disciple. Aries had come back to our side.

## **Page 15**

Hakurei - In the end, it still assaulted him physically and mentally.

Sage - You're right, brother. Avenir will guide shion. that boy would have done everything we could not .....He will crown your dream ....

## **Page 16**

Shion - there was nothing .... it was a dream?

Manigoldo - No ... look around you ....

## **Page 17**

Shion - What is that?

## **Page 18**

Shion - Until now there was nothing there .....

Manigoldo - Where did those ruins come from? Bingo! So my old man sent us to the right

place? This is the place that should be found. I think we've disappeared for a while ...

Shion - Disappeared?

Manigoldo - Disappeared. I did not think it was serious, but the place is real.

#### **Page 19**

Manigoldo - but .... it's a very dangerous place ... we should always be on the alert, or we will not return to our world ....

Shion - I understand...

#### **Page 20**

Manigoldo - The welcome fight does not want us here!

Shion - Where is it coming from?

#### **Page 22**

Manigoldo - Who are these guys?

-Who are you? Since when did you come?

Shion - Since when? but what?

Manigoldo - Do not be abrupt, shion. This is bothersome.

#### **Page 23**

Manigoldo - Hey, you! we walked from the sanctuary. We come to retrieve the Aries Cloth that is with you.

-Shall we surrender the Cloth? What do you need it for?

Manigoldo - We need it for the holy war. I'd say that's a good reason.

-The sanctuary?

#### **Page 24**

-You ..... smell of death ... You say you came from the sanctuary? Let's not fall into such ridiculous cloth!

#### **Page 25**

-we never give up the Cloth of such a noble person!

#### **Page 26**

Shion - They are very strong! And they are protecting the Aries Cloth..... but from what?

#### **Page 27**

Shion - hang on! We are not your enemies! We are not from the hades army! On the contrary! We need the Aries Cloth to defeat him!

-You do not fool us with your lies!

#### **Page 28**

-Demon!

#### **Page 29**

Shion - What? I can hardly move. Why?

#### **Page 31**

Shion - Other people? Am I paralyzed? No, it's not that! Am I frozen in time? It's dangerous here! If I stay here .....

### **Page 32**

Shion - I want to know what happened here. What happened to you and the old Aries! What happened after the last holy war!

### **Page 33**

Shion - Answer me!!

-Telling you would not change anything ... the desperation to live in this temporal prison!

### **Page 35**

Manigoldo - You all right, Shion?

Shion - Yes....

Manigoldo - ah .... he did too?

Shion - what?

Manigoldo - The other guy also aged into dust when I used the sekishiki .... as if it had been left to rot for thousands of years.

Shion - That man said something about a temporal prison. In this place, of time is without doubt, special ... I fear that...

### **Page 36**

Shion - we'll be stuck in this place forever.

### **Page 37**

-Unbelievable! Magnificent! It's been a long time since I've seen sekishiki being used like this. But the cancer of that time has a totally different style from sage. I'm sure he's doing very well as Pope!

Shoin -What? A boy?

-I apologize for my comrades who suddenly attacked you .... but all those years have accumulated a lot of tension, because ....

### **Page 38**

-here time graces us

Manigoldo - So we finally found someone willing to talk. We are...

-I know who you are ... it was the last wish of the noble avenir that brought this boy here.

Shion - in that case....

-Yes, I will be your guide.

### **Page 39**

-I'm going to explain everything that is happening here ... hopeful that you will save the future and all of us. We ... wait for centuries for your arrival.

### **Page 40**

Shion - But how ... is it a seal?

Manigoldo - What immense power ... has a level infinitely superior to that of a Specter.....

### **Page 41**

Manigoldo - It's the level of a god. The seal is heart of the temporal distortion that plagues the city. My companions tried to break it several times, but ...

Manigoldo - it was useless .... touching this seal means totally blocking the flow of time. Do not tell me what you expect ...

-Yes, I want you to break it ...

Manigoldo - Ah ha! I already knew!

### **Page 42**

Shion - We can not leave things as they are. It's no use talking.

-This seal was placed years after the holy war. I can not tell you why the Aries Cloth is missing. One day a man came ... dressed very strangely for the patterns of this village ...

Mephistopheles - I was sent by the sanctuary. I would like to have a look .....

### **Page 43**

Mephistopheles - at the beautiful Aries Gold Cloth.

-He said his name was kairos ....
