

# The Complete Guide to Contract Manufacturing and How it is Revolutionising the Market?

<https://www.equiindia.com/>

Contract manufacturing is a process where a company pays for production of its product in another company's factory for any number of reasons. The contract manufacturing process facilitates the transfer of knowledge and expertise to the service provider, which results in cost-effective production. One example is when an established manufacturer outsources production to a startup, who lacks the necessary experience and expertise

How to Get Start With [\*\*\*Equiplus India Exports Pvt Ltd\*\*\*](#).
