

## Cipla partners with Genes2Me to launch Coronavirus RT PCR test kit

The kit is validated by the Indian Council of Medical Research (ICMR) and much more advanced than other RT PCR tests, the drug firm said

Drug major Cipla on Tuesday said it has launched a COVID-19 RT PCR testing kit in the country in partnership with diagnostics firm Genes2Me.

With the launch of the "RT-Direct multiplex COVID-19 RT PCR" test kit, the Mumbai-based drug firm is expanding its diagnostics offerings, it said in a regulatory filing.

Cipla will be responsible for the distribution of RT Direct kits in India and has commenced supply of the same, it added.

The kit is validated by the Indian Council of Medical...[read more](#)
