

Support Building Functionality with BIM Facility Management

Facility management encompasses multiple disciplines to ensure functionality, safety and efficiency of the built environment.

-
Choose BIM Facility Management services from Tejy Inc. for:

- Managing equipment & premises
- Reducing maintenance issues
- Saving significant costs
- Focusing more on prevention rather than cure
- Dealing with problems before occurrence at the pre-construction stage

To improve your productivity through facility management services, contact Tejy Inc. BIM consultants at 202-465-4830 or info@tejy.com.
