Google Search Engine had been used by people from a longer time period and at the same time its history of the search engine had been laid back from about 1945. This came into being from a lot of effort of two students and thus after the approval of their efforts it came into being. The search engine had been in the running phase for a greater extent and during its running phase it was used by many people and thus till now it is also used by a larger number of populations. Before Google came into being it was given many new names but later on its name changed onto Google and then it was introduced among all the people and its popularity increased too.

On this search engine people can find each and everything which could not be found through other search engines. Moreover it can be found out that Google has one of the greatest numbers of shares among all the other search engine companies and thus this search engines is becoming famous and known to all people on daily basis. Different types of search engine provide people with all sort of relevant information. Google is one of the top most important website that is used by many people for searching purposes.

Search engine along with its companies have many different types of objectives which they want to achieve. In Canada people can search for many different website they want to. Recently Google had decided to update its website. They have said that they want to update their new department for people's purpose. Through the complaint page people can provide their different complains to people. Google had been doing a lot of benefit for the people. Apart

from providing the information Google also provides people with the ranking facilities as well which means that people can also rank their websites on Google Page Rank as well.

Google had been providing people with many different products and services. Around the world Google runs in many different parts of the world and Google in Canada had made the lives of people quite simple and throughout this they can search everything they want to gaze at their usage. People had said that they like this very much and through this people can see the type of information they want to see. Google had been awarding different companies as well and even apart from this they had been working a lot.

On the other hand Google have its different home page in all its countries. However Google had gained much of the fame in many different parts of the world and it is anticipated to be liked by many people. Google was the invention of two PhD scholars and their hard work led to many different conclusions. In Canada and America Google is used to a greater extent and it is liked by many people more than there. Currently Google is trying to invest in many different projects and back in 2008 it invested its much of the money in a project which was basically an energy project.
