What is Loan?

A loan is the purchase of the present use of money with the commitment to return the amount in the future on a pre-determined timetable and at a pre-determined interest rate. The terms and duties between the lender and the borrower are clearly stated in the loan contracts.

What are the types of Loan Services?

Easy Loan Mart offers three types of loan services. We mentioned below in the list.

1. [Home Loan/Housing Loan](#)
2. [Business Loan](#)
3. [Personal Loan](#)
4. [Instant Loan](#)

Home Loan

A home loan often referred to as a mortgage, is an amount obtained by an individual from a bank or other lending institution. The borrower will have to repay the loan amount along with the interest in easy monthly installments, or EMIs, which can range from 10 to 30 years depending on the type of loan.

Business Loan

A business loan is an amount of money that the lender provides and that the borrower repays over a predetermined period of time, plus interest. If you decide to pay off your loan early, some lenders may charge you a fee, so it's always a good idea to understand the terms and conditions of your loan. You can even apply for a business loan online via an Easy Loan Mart.

Personal Loan

A personal loan is typically one of the simplest methods to obtain cash for a variety of personal requirements. Perhaps more significantly, you don't have to put up any collateral to receive this loan, and you have almost no restrictions on how you can utilize the funds. Borrowing money, however, comes with a price tag in the shape of interest payments, processing fees, documentation fees, and so on.

Instant Loan

Instant loans are those which do not demand a lot of documents and are provided quickly without the need to show any assets. Compared to typical bank loans, the process is simple and convenient. Personal loans and instant loans are other terms for an instant loan.

Top Features & Benefits of Loan

- Professional Loans with Multiple Purposes
- Increased loan amount
- Simple & Quick processing
- Fast Approvals
- Easy interest rates on the wallet
- There is no requirement for collateralized loans.
- Repayment terms are flexible.
- There are no hidden charges.
- There is no charge on part pre-payment
- Special offers & deals

Best & Reliable Loan Services

- Loan servicing is done by the bank or financial institution that supplied the loan, a third-party vendor, or a business that specializes in loan servicing.
- From the moment the funds are disbursed until the loan is paid off, loan servicing tasks include collecting monthly payments, paying taxes, and other parts of the loan.
- Loan servicing became less profitable for banks as a result of securitization.
- Loan servicing has grown into its own business, with companies getting a tiny percentage of loan payments as compensation.

Conclusion

We can operate in both established and emerging markets at any point in the loan lifecycle. Both simple and sophisticated huge syndicate transactions are supported by us. **To know the**
