

Products-Blue Tea

Our blue tea is sourced directly from farms in Southern India where it is naturally grown. With its health benefits and being a natural colouring agent is preferred by chefs too across the globe. Blue tea, made of butterfly pea flowers, is an herbal tea according to Ayurveda. It is a delightful, healthy, and refreshing tea which contains various active compounds that improve your memory and promote mental health. What makes it perfect is its colour. Brew these delicate flowers in warm water and you will see the magic unfold. They release a captivating blue colour that turns purple with a few drops of lemon juice. Thus coffee research and development has become an on-going activity leading to new introductions like [Coffee vending machines for offices](#), espresso machines, [office vending solutions](#) and services. All love coffee and let us see how much we know about coffee
