## 8 Effective Steps to Pass the NDA Written Exam on the First Try

### 1. Make a plan.

Planning is essential for meeting a large goal on time. Planning aids forecasting and provides us with an idea of how we will complete or perform the work. So, when preparing, it is essential to create a proper plan because it aids in completing the work or syllabus on time.

### 2. Master Short Tricks

Instead of learning formulas and methods, create a list of shortcuts and tricks to solve tricky questions or questions that will consume all of your time. In their [NDA Coaching classes in Pune](#), DCG Defence Academy assists students in learning shortcut keys.

### **3. Previous year's papers**

To begin your practice, pull out previous NDA papers and solve them. When you have completed the previous year's question papers, begin working on the NDA sample papers.

### **4. Think about NDA Books**

To prepare for the NDA Exam, use NDA exam books available on the market. Those books can be completed in a month and help you learn more from them.

### **5. Master the Fundamentals**

Learn the 10th and 12th grade textbook methods, formulas, and calculations. Learn or repeat the formulas every day before going to bed.

### **6. Time management**

People who want to study for the NDA exam should schedule their time according to the syllabus. It assists them in preparing for or completing their syllabus according to their strategy. It also eliminates time wastage and allows you to revise the syllabus.

### **7. Current Affairs and General Knowledge**

Reading the newspaper every day is the best way to stay up to date. You can also take notes from a newspaper or cut out the part of the newspaper that is relevant to your situation. If you concentrate on current events, your GK will automatically improve. Some sources, such as YouTube and social media, will assist with current events.

### **8. Always start with the easiest task.**

Always begin with the less difficult and time-consuming portion. NDA examples prioritize general awareness and English over maths. However, do not attempt to complete the entire section in one sitting. If you can't answer a question, move on to the next one; don't waste time on the first one.
