

Pragmatic Play unleashes Day of Dead

Pragmatic Play, a leading content provider to the iGaming industry, invites players to lace up their dancing shoes and join the celebrations in new release, Day of Dead.

Bursting with eye-catching visual effects and a fiery fiesta soundtrack, the stunning game provides players with a unique slot experience inspired by the popular Mexican national holiday, Dia de Muertos.

Central to the game's action are the Wilds, one of which will move one space across the reels with each spin until they fall off, paying any wins and triggering respins before they do. Respins will continue to take place until there are no Expanding Wilds in view.

Landing three Scatter symbols on the first, third and fifth reels in the base game triggers the Free Game feature. There is no set number of spins here, rather the feature will continue to operate as long as there are Expanding Wilds on the screen.

Players in eligible jurisdictions can take advantage of the Buy Feature, costing players 100x their stake to trigger the Free Game feature on the spin that follows.

Day of Dead arrives swiftly after recent hits Cash Bonanza, [에볼루션 바카라사이트](#) Mystic Chief, and Piggy Bank Bills, which exist amongst a collection of over 200 HTML5 titles in Pragmatic Play's award-winning games portfolio.

Yossi Barzely, Chief Business Development Officer at Pragmatic Play, said: "Dia de Muertos is a very unique festival that has some very eye-catching visuals associated with it, therefore we wanted to create a title that provides a true feast for the senses.

"We are thrilled with how Day of Dead has shaped up, with its dazzling graphics and unique mechanics combining to bring something entirely new to our portfolio."
