

## Bitcoin Sydney Socratic Seminar on 17 March

Bitcoin Sydney is starting a Socratic Seminar in the style of BitDevs NYC and the SF Bitcoin Devs meet up. Socratic seminars are more technically focused group discussion about a wide range of bitcoin-related topics. Pull requests, new papers, security vulnerabilities and other topics are discussed at socratic seminars. Participants are welcome to propose topics for discussion before each event.

This will be a remote zoom call meet up to allow participants across Australia. Please join the Telegram chat group to get the zoom call link on the day.
