

Choose between NPS Active Choice vs Auto Choice with My First Crore

The distinction between active choice and auto choice in NPS is self-evident, with active choice giving you more say and control over asset allocation and funding. The auto option, on the other hand, is appropriate for those who want a passive investing strategy. Through Active choice or Auto choice, you can invest in several asset classes such as stock, corporate bonds, and government securities. Visit the website of My First Crore today to learn more about [NPS Active Choice Vs Auto Choice](#) online!
