

Workers Compensation Lawyer Dallas

Notify your employer of your injury as soon as possible, but no later than 30 days after the accident. If you can, you might want to wait to provide notice until after you hire an experienced attorney, so that your legal rights are sure to be protected at every stage of the process. Don't expect your employer to initiate the process for the payment of workers' compensation benefits. Furthermore, don't try to apply for them on your own. An experienced attorney can make certain all forms are correctly completed and filed in a timely manner and will help gather and preserve all evidence to support your claim.
