

Point-of-Care Testing Market Major Drivers, Trends, Growth and Demand Report 2029

Point-of-Care Testing Market (POC) size is expected to reach 21.31 US\$ Bn in year 2029, at a CAGR of 4.8% during the forecast period.

Point-of-Care Testing Market Overview:

The [Point-of-Care Testing Market](#) Report from Maximize Market Research provides readers with an assessment of the global market landscape via the use of a comprehensive viewpoint. This research on the Point-of-Care Testing Market looks at the scenario from 2021 to 2027, utilizing 2020 as the base year and 2016 to 2019 as the historical period. This research assists users in making key business decisions by utilizing a wealth of information presented in the study.

Market Scope:

This research on the Point-of-Care Testing industry is based on a thorough examination of the market, supported by secondary and primary sources. Market volume is determined by a country-by-country model mapping of Point-of-Care Testing utilizing internal and external private information, as well as relevant patent and regulatory sources. The competitive environment of the Point-of-Care Testing market is backed by an examination of the many elements that impact the market on a micro and granular level. Researchers in the Point-of-Care Testing sector generate predictions and projections and compute market forecasts by thoroughly reviewing historical data, current trends, and important company announcements.

Segmentation:

Global Point-of-Care (POC) Testing Market is segmented into Product Type, by End-user Type, and by geography. Based on product type point of the care market is segmented into Glucose Monitoring, Cardiac Markers, Infectious Diseases Testing, Cholesterol Testing, Coagulation Monitoring, Pregnancy and Fertility Testing, Hematology Testing, Blood Gas Testing & Others. By End-User are segmented in Clinics, Home, Laboratories, Assisted living healthcare facilities, Hospitals. Geographically into North America, Europe, Asia Pacific, Middle East & Africa, and Latin America.

Key Players:

- Abbott
- Beckman Coulter Inc.
- Instrumentation Laboratory
- Johnson & Johnson
- Nova Biomedical
- Qiagen
- Roche Diagnostics Limited
- Siemens AG
- Abaxis, Inc.
- Abbott Laboratories
- Alfa Scientific Designs, Inc.
- ARKRAY, Inc.
- Ascencia Diabetes Care Holdings AG
- Becton Dickinson and Company
- bioMerieux SA
- CHEMBIO DIAGNOSTICS, INC.
- F. Hoffmann-La Roche AG
- LamdaGen Corporation
- Medtronic Public Limited Company
- Nova Biomedical

This report provides market monitoring for a specific area of the client's interest and provides up-to-date information on strategic initiatives such as mergers, acquisitions, partnerships, expansions, and product launches for leading companies on a regional scale for various industries or markets, depending on the client's subscription period. A team of research professionals updates and amends our data on a regular basis to reflect the most recent trends and facts. To fulfil the needs of both individual and corporate clients, we have substantial competence in research and consulting for a wide range of business disciplines. Our knowledgeable staff use proprietary data sources as well as a range of additional approaches. The key players in the Point-of-Care Testing industry ...

Regional Analysis:

North America (including the United States, Canada, and Mexico), Europe (including Germany, France, the United Kingdom, Russia, and Italy), Asia-Pacific (including China, Japan, Korea, India, and Southeast Asia), South America (including Brazil, Argentina, and Colombia), the Middle East, and Africa have all been studied (Saudi Arabia, UAE, Egypt, Nigeria, and South Africa). The study presents regional competitive circumstances. These insights help market participants improve their approaches and provide new opportunities to achieve amazing results.

COVID-19 Impact Analysis on Point-of-Care Testing Market:

The Global Point-of-Care Testing Market Research Report offers an overview of the industry based on key variables such as market size, sales, sales analysis, and major drivers. The market is expected to grow considerably during the forecast period (2021-2027). This paper also provides the most current COVID-19 market implications. The spread of the epidemic has had a wide-ranging influence on people's lives all around the world. Markets have been forced to adopt new norms, trends, and tactics as a result. Essentially, the study report tries to paint a picture of the market's initial and future projections.

Key Questions Answered in the Point-of-Care Testing Market Report are:

- What are the new competitive developments in the Point-of-Care Testing market?
- What is the market size, and share of Point-of-Care Testing?
- How can I get sample reports/company profiles of the Point-of-Care Testing market?
- Who are the potential customers of the Point-of-Care Testing market?
- Which are the leading players in the Point-of-Care Testing market?
- How can I get company profiles on the top ten players of the Point-of-Care Testing market?
- Which region is and will provide more business opportunities for Point-of-Care Testing in the future?
- Who are the service providers of the Point-of-Care Testing industry?
- What are the key growth strategies of Point-of-Care Testing industry players?
