

Renewable Energy Solutions

Retail

CES manages clients' alternative and [renewable energy](#) compliance obligations, program offerings, and opportunities associated with retail load served on a state-by-state basis.

Features & Benefits

Comprehensive market coverage: ensure compliance with state Renewable Portfolio Standard obligations and maximize green energy program offerings in every retail market.

CES offers comprehensive compliance services, from registration, cost management strategy development, and procurements to REC tracking and submission filings. Market knowledge is used to evaluate opportunities and make recommendations to optimize renewable energy compliance strategies. CES will implement strategies by managing procurements, settlements, and administrative filings.
