

## Is 2023 the Year of the Security Token by dunitech.

When Bitcoin first appeared, cryptocurrency was simply that: a currency. However, the term "cryptocurrency" has become somewhat out of date. Because of the rise of initial coin offerings (ICOs), there are now thousands of different cryptocurrencies available, with ICO-generated coins commonly referred to as "tokens." <https://www.dunitech.com/Security-Token-Offering.aspx>.
